

Carnicom Institute : Index of Laboratory Notebooks

Topic Sort

Volumes 1-25 complete

Topic	Volume	Page
A Point of Reckoning - Notes	20	172
A Point of Reckoning - Parts I, II, III, IV - Notes	20	206
A Point of Reckoning II - notes	20	182
A Point of Reckoning III notes	21	90
AC Voltammetry - electrochemistry - methods development	18	155
Accomplishments - fundamental conclusions - historic importance - comparisons	25	125
Acid - base - studies	4	90
Acid - base - studies	4	217
Acid concentration - pH	1	47
Acidic protein - CDB	17	41
Acidic protein - CDB	18	251
Aerosol - climate - model - development	8	36
Agricultural sample study -Earthguard (TM) - methods development	23	79
Agriculture - CDB Protein Experiments	21	22
Air Filter - HEPA - spectroscopy - extraction	18	257
Air filter - rainfall IR analysis - similarity reported	21	38
air filter analysis - initial	16	70
Air filter analysis - IR - HEPA	21	39
Air filter LC separations - protein identifications	21	88
Air HEPA Filter Analysis	22	258
Air quality - mortality studies - model development	12	336
Air quality - studies - data collection	12	110
Air quality - studies - data collection	12	149
Air quality - studies - data collection	12	228
Air quality - studies - data collection	12	235
Air quality - studies - data collection	12	238
Air quality - studies - data collection	12	295
Air quality - studies - data collection	12	330
Air quality - studies - data collection - EPA investigations - assessments	12	261
Air quality - studies - data collection - EPA investigations - assessments	12	269
Air quality - studies - model development - "exponential harmonics employed" - EPA	12	285
Alcohol - cuvettes reaction	18	78
Alcohol prospect - repeated references	24	297
Aldehydes - assessment review	24	272
Aldehydes - yeast - fungi - production - toxicity concerns	24	108
Alkyl halide - ferric cyanide - analyses	23	38

Aluminum - detection - methods development	4	126
Alzheimers - protein detection - blood tests - relationship to Morgellons	24	264
Amateur Radio Studies	22	4
Amide Identification - Cross Domain Bacteria	20	9
Amides - CDB	22	163
Amides - CDB	22	172
Amides - Cross Domain Bacteria	22	166
Amides - Esters - CDB	22	183
Amides - Isothiocyanate	22	192
Amides - Nitro Group - Isothiocyanate - Protein - Env. Filament	22	192
Amides -Environmental Filament	22	192
Amine test - positive result - oral sample	18	6
Amines - positive test - oral filament - biofilm oral extraction	18	30
Amino acid - chart -reference	17	72
Amino acid - proline - studies - observations	4	28
Amino acid postulates - CDB protein studies	23	367
Amino acid studies - Serine considerations	23	368
Amino acids acid - base - polarity - studies	3	305
Amino acids - attributes - polarity - charge - studies	4	49
Amino Acids - CDB	22	174
Amino acids - histidine - cysteine - reference	3	252
Amino acids - identification - visible spectroscopy - methods development	4	40
Amino acids - identification attempts - early investigations	3	301
Amino Acids - interference - investigations - CDB secreted protein	17	117
Amino Acids - investigations - CDB secreted protein	17	119
Amino acids - molecular structure - studies	4	73
Amino acids - proline - cysteine - revision notes	4	31
Amino acids - prospects - cysteine - proline - tryptophan	4	31
Amino acids - reactions - observations - studies - investigations	4	15
Amino acids - reactions - observations - studies - investigations	4	22
Amino acids - structure - studies	3	261
Analysis of variance - methods investigations	25	358
Angina (potential) episode - Tucson period - CEC	22	179
Antenna Analysis	22	112
Antenna Analysis	22	159
Antenna Studies	22	33
Anthocyanin (cranberry - wine) extraction - nitrite production - culture	18	36
Anthocyanins - iron - cyanide - ion - combination - red wine - observations - studies	3	109
Anthocyanins - metal complex formation	17	325
Aquariums established - toxicity studies - commenced	23	118
Artificial spider webs	21	136
Ascorbic acid - Vitamin C - reduction capability	4	47

Ascorbic acid - citric acid - comparisons - distinctions	3	138
Ashing - Microwave Digestion methods developed	21	223
Atmospheric pollution - mortality - relationship - model development	13	154
ATR (attenuated total reflection) - IR spectroscopy - pH neutralization methods	16	207
ATR (attenuated total reflection) - IR - digestion - salt crystal - methods	21	269
Azeotrope - boiling point methods - investigations	15	189
Bacteria - esters - phosphates - references	15	49
Bacterial identification methods - reference	15	64
Balance chemical equation	1	40
Barium - aluminum - specific heat	1	64
Barium - ion - qualitative chemical testing	3	77
Biochemical analyzer - colorimetric test development - investigations	17	166
Bioengineering - geoengineering - relationships - comments	13	176
Biofilm - chronic cough - relationship - assessment	17	306
Biofilm - composition - bacteria	17	306
Biofilm - polysaccharides - protein - DNA	17	306
Biofilm - quorum sensing - bacteria	17	306
Biofilm - reduction - "sugar cutting" enzymes	17	307
Biofilm - vitamin C - colorimetric tests - investigations	17	319
Biofilm extraction - polysaccharide - protein detection - Vit C extraction	18	23
Biomarkers - nitrite production - biofilm	17	306
Biomolecules - colorimetric test development - investigations	17	303
Biuret reagent - protein concentration - difficulties	17	230
Biuret reagent - protein concentration - difficulties	17	248
Blackworm - toxicity studies - commenced	23	119
Blood - artificial	1	13
Blood - CDB - reactions - observations	8	141
Blood - CDB culture variation	18	296
Blood - culture - iron - ferric - ferrous - comparisons - relationship	3	4
Blood - cultures - visible light spectroscopy - VIS	3	52
Blood - disruption - ferredoxins	21	368
Blood - hemoglobin concentrations - methods development - investigations	2	132
Blood - hemoglobin test - investigation	10	213
Blood - infrared spectroscopy - ATR - sample preparation	16	215
Blood - IR analysis	21	308
Blood - IR spectroscopy - investigations - isothiocyanate - reference	11	124
Blood - iron - CDB - studies - investigations	10	37
Blood - iron - energy - oxidation - investigations - studies	3	39
Blood - iron - ferrous - ferric - investigations	3	29
Blood - iron - oxidation - free radical - studies	3	157
Blood - iron - oxidation - ligands - free radicals - respiratory inhibitors - summary	3	98
Blood - iron concentration levels - investigations	14	46

Blood - iron consumption	2	91
Blood - iron investigations	14	4
Blood - Methemoglobinemia - reference	3	22
Blood - mitochondria - heme - protein - relationships	3	156
Blood - morgellons	2	104
Blood - nitrite testing	18	47
Blood - oxidized iron - ferric - effects of - methemoglobinemia - free radical formation	2	280
Blood - oxidized iron - ferric - effects of - oxygen deficiency - free radical formation	2	280
Blood - protein concentration - investigations - test developed	17	293
Blood - proteins - disruption - CDB - comments	9	121
Blood - test methods	1	6
Blood - testing	1	14
Blood - VIS spectrometry	2	104
Blood composition - investigations	17	278
Boiling point - azeotrope - investigations	15	189
Boiling point studies - methods development	23	55
Bonds - ionic - covalent	1	67
Bradford protein test - detection limits - concentration	17	200
Bradford test - dipeptide - investigations	19	52
Brain wave testing - initial investigations	18	107
Breath - Human - Gas Chromatography (GC) analysis	20	25
Calcium testing	21	198
Calorimetry - laboratory methods - development - investigations	16	146
Calorimetry - laboratory methods - development - investigations	16	171
Carbon black discovery - rainwater sample	20	178
Carbon dioxide production - CDB	17	18
Carbon monoxide - bacterial production - reference	19	148
Carbon monoxide - investigations - GC	19	127
Carbonyl groups - esters - ethers - ketones - investigations	16	77
Carnicom Institute - film interview session	25	208
Carnicom Institute - status assessment	25	172
Carnicom Institute (CI) - Active projects -summary	18	163
CBD - endotoxins - proteins - reference	5	233
CBD - hemoglobin - iron - ferric - concentration - reference hemoglobin - assessments	2	266
CBD Culture method notes - white - brown - sugar comparisons	18	49
CBD protein - solid - EPA environmental filament - comparisons - IR match	25	120
CDB - protein - lipids - extractions - methods development - early generation	6	32
CDB - "Cross Domain Bacteria" - nomenclature sustained	24	109
CDB - (Cross Domain Bacteria)	22	183
CDB - acid - disassociation constant determination	24	231
CDB - acid determination - laboratory note revisions	24	243
CDB - acid identification - phosphoric acid identification - revision notes	25	249

CDB - advanced culture development - observation	18	264
CDB - advanced growth and "cellular" organization observations	23	141
CDB - agar culture method	18	266
CDB - alcohol production	18	203
CDB - alcohol production prospect	18	63
CDB - amide - protein identification - UV spectroscopy	20	12
CDB - Amide Identification - Charred protein	20	9
CDB - Amides	22	166
CDB - Amides - Esters	22	183
CDB - amides - iron sulfur protein - ferridoxin - initial structure hypothesis	21	372
CDB - Amino Acids	22	174
CDB - amino acids - initial investigations	20	60
CDB - Amino acids - notes	19	39
CDB - Anaerobic prospects	18	206
CDB - antibiotics - testing - investigations	5	92
CDB - antibiotics - testing - investigations	5	109
CDB - artificial organs - transhumanism - prospects - notes	24	308
CDB - bacterial attributes - inventory	5	29
CDB - bile - laboratory tests	5	177
CDB - bile - pH - polysaccharide - endotoxins - laboratory tests	5	217
CDB - bile - pH -studies - acidic - observations	5	251
CDB - black filament production - culture observations	18	221
CDB - bleach - iron reaction - ferrous	24	110
CDB - blood - alkyne testing - positive result - referenced	16	217
CDB - blood - iron - ionic form - bound - comparisons - testing	2	307
CDB - blood - mixture - infrared (IR) analysis - isocyanide - observations - investigations	8	171
CDB - blood - reactions - observations	8	141
CDB - blood - urine -examinations - organization - geometry - research paper reference	25	404
CDB - blood - VIS spectrometry - observations - age investigations - health assessments	2	232
CDB - blood - VIS spectrometry - observations - investigations - health assessments	2	212
CDB - blood - VIS spectrometry - observations - investigations - health assessments	2	216
CDB - blood culture	18	296
CDB - blue color - advanced culture - observation	18	264
CDB - Boiling point - result	15	49
CDB - carbon dioxide production	16	132
CDB - carbon monoxide production	16	140
CDB - charred protein - Bradford test	19	167
CDB - citrate - iron - culture - investigations	10	77
CDB - citrate - observations - comments - reference	10	76
CDB - coccus form - culture variations	18	244
CDB - color observations	18	224
CDB - color observations - alcohol production - transition metal - referenced	16	216

CDB - component listings - phosphate ions noted	24	253
CDB - Cross Domain Bacteria	22	163
CDB - culture	2	4
CDB - culture - aerobic metabolism confirmed	19	214
CDB - culture - antioxidants - citrate - reference	9	178
CDB - culture - coccus form isolation	18	264
CDB - culture - colored layer formation - referenced	16	200
CDB - culture - electromagnetic studies	5	144
CDB - culture - filament formation - observations - early generation	6	24
CDB - culture - filament production	18	235
CDB - culture - filament production - media	18	240
CDB - culture - glucose levels - metabolism - monitoring - investigations	10	217
CDB - culture - growth inhibition - research paper - referenced	4	314
CDB - culture - magnetic properties - stated	3	206
CDB - culture - metabolic gas production - investigations	19	122
CDB - culture - methods development - early investigations	5	43
CDB - culture - notes	19	164
CDB - culture - oxygen - influence - reactions	9	167
CDB - culture - pH observations	18	223
CDB - culture - skin condition - equivalency	19	154
CDB - culture - vacuum environment - reference	5	108
CDB - Culture Elemental Analysis - Protein Production	20	51
CDB - culture growth observation	2	20
CDB - culture inhibition prospect	2	20
CDB - culture medium variations	18	223
CDB - culture medium variations	18	263
CDB - culture methods - colored layer production - reference	16	181
CDB - culture methods - oxidation state measurements - ORP	16	183
CDB - culture protein - HEPA extraction - color comparison	21	60
CDB - cultured red layer formation - alkynes test - positive test - referenced	16	216
CDB - culturing - protein - methods development - early investigations	5	231
CDB - culturing - protein - methods development - early investigations	5	235
CDB - cytochrome - hemoglobin - spectrum - VIS - comparisons - comments	2	246
CDB - direct protein production - query	18	215
CDB - DNA - culture mediums - protein extraction identification - summary	18	306
CDB - DNA - genetic engineering - references	18	206
CDB - DNA extraction	24	38
CDB - DNA extraction - control trials	24	26
CDB - DNA extraction - advanced culture - commence men	24	25
CDB - DNA extraction - reference - laboratory results	4	290
CDB - DNA extraction - repeat reference - laboratory results	4	293
CDB - DNA extraction - repeat reference - laboratory results	4	295

CDB - DNA extraction - repeat reference - laboratory results	4	301
CDB - DNA extraction - verification - IR spectroscopy - visual	24	45
CDB - DNA extraction - verification - methods development - early generation	6	61
CDB - electrical circuit simulation - modeling	5	212
CDB - electromagnetic studies - early investigations	5	36
CDB - electromagnetic studies - investigations	5	55
CDB - electromagnetic studies - investigations	5	99
CDB - electromagnetic studies - investigations	5	110
CDB - elemental composition - early investigations	3	217
CDB - elemental composition - early investigations	3	244
CDB - ferric ion - ferric salts - spectrum - VIS - revision notes	2	308
CDB - ferric citrate transport - reference	10	76
CDB - Ferridoxin protein	22	169
CDB - filament production - reference	18	205
CDB - film layer observations	18	49
CDB - fuel cell - prospects - comments	9	174
CDB - fuel cell - prospects - comments	9	179
CDB - gas chromatography analysis	20	46
CDB - gas production - carbon monoxide - acetone - observations	15	214
CDB - gas production - metabolism - carbon monoxide - CO ₂ - observations	15	204
CDB - gas production - nitrogen utilization	20	18
CDB - gas production - observation	15	198
CDB - Genetic engineering - notes	19	38
CDB - Genome size estimation - initial investigations	20	87
CDB - Geometric - Microscopy	22	339
CDB - Geometric Formations	22	339
CDB - Gram stain - negative - reference	4	281
CDB - Gram stain - negative - reference	4	285
CDB - growth - blood	2	114
CDB - Headspace analysis - GC - IR	20	139
CDB - HEPA filter extraction - filament observation - protein confirmation	18	278
CDB - high infrared absorption - qualitative observation	20	74
CDB - Hydrocarbon analysis - molecular weight investigation - protein	19	176
CDB - Hydrocarbon gas production	20	136
CDB - hydrocarbon production	15	212
CDB - hydrocarbon production	17	10
CDB - hydrocarbon production	19	215
CDB - hydrocarbon production	19	252
CDB - Incubated culture - Protein secretion - protein production	20	12
CDB - Index of refraction model developed	20	150
CDB - Infrared (IR) spectroscopy - analysis - characteristics	9	12
CDB - Infrared (IR) spectroscopy - analysis - characteristics	9	19

CDB - Infrared (IR) spectroscopy - analysis - investigations	9	4
CDB - investigations - bacteria	15	19
CDB - iron - concentration - methods development	2	221
CDB - iron - ferric - ion vs. metal complex - detection of - assessment	2	337
CDB - iron - ferric - metal complex - detection of - assessment	2	341
CDB - iron - pH - investigations	3	207
CDB - iron- detection of - primary component	2	219
CDB - Iron test - secreted protein	20	60
CDB - lipid - protein - lipid -production - methods development - early investigations	5	282
CDB - Lipid extraction - Infrared spectrum	19	11
CDB - Lipid extraction - Infrared spectrum	19	14
CDB - lipids - analysis - aromatic isothiocyanate - reference	11	63
CDB - lipids - analysis - investigations - IR spectroscopy	11	58
CDB - lipids - assessment - investigations - analysis	11	67
CDB - lipids - CEC NOTE (09-12-20):METHYL SALICYLATE -BENZOIC ACID] - relationship?	10	132
CDB - lipids - components - probability model	8	100
CDB - lipids - distillation - methods development	10	53
CDB - lipids - investigations	10	51
CDB - lipids - iodine - reaction	8	87
CDB - lipids - IR library (SDBS - Japan) - match prospect comments (benzene ring)	10	150
CDB - lipids - IR library search - match - note benzoic acid reference	10	132
CDB - lipids - IR library search (SDBS - Japan) - benzene ring - reference	10	163
CDB - lipids - IR library search (SDBS - Japan) - match prospects	10	149
CDB - lipids - IR library search (SDBS - Japan) - match prospects	10	158
CDB - lipids - IR library search (SDBS - Japan) - match prospects	10	161
CDB - lipids - IR spectroscopy - assessments	10	104
CDB - lipids - IR spectroscopy - assessments	10	109
CDB - lipids - IR spectroscopy - assessments	10	113
CDB - lipids - IR spectroscopy - assessments	10	116
CDB - lipids - IR spectroscopy - assessments	10	117
CDB - lipids - IR spectroscopy - investigations	10	83
CDB - lipids - IR spectroscopy analysis	10	185
CDB - lipids - IR spectroscopy analysis - match prospects	10	166
CDB - lipids - IR spectroscopy analysis - structural proposals	10	177
CDB - lipids - IR spectroscopy analysis - structural proposals - match prospects	10	169
CDB - lipids - IR spectroscopy analysis - summary statement	10	186
CDB - lipids - molecular weight - estimates - investigations - methods development	10	68
CDB - lipids - molecular weight determination - investigations	14	231
CDB - lipids - preliminary analysis	8	81
CDB - lipids - preliminary analysis - observations - assessments	8	82
CDB - lipids - preliminary analysis - observations - assessments - polarity - halogen	8	84
CDB - lipids - properties - summary	10	56

CDB - lipids - protein - infrared spectroscopy - investigations	11	96
CDB - lipids - structural proposal - infrared (IR) analysis	8	187
CDB - lipids - structure proposal	9	30
CDB - liquid chromatography - separations - IR analysis	25	202
CDB - liquid chromatography - separations trials - functional group inventory	25	161
CDB - liquid chromatography - summary	24	111
CDB - Log P estimations	20	142
CDB - metabolic gas production - analysis	20	21
CDB - Metabolic gas production analysis - gas chromatography	20	128
CDB - metabolism - gas production - nitrogen production	17	51
CDB - metallic film layer - formation - prospects	18	96
CDB - Molecular weight estimation	19	6
CDB - molecular weight estimation	19	217
CDB - Near Infrared (NIR) analysis	21	253
CDB - NIR spectroscopy - initial investigations	25	170
CDB - Nitrate production	21	249
CDB - organophosphates - prospects - iron - polyneuropathy - liver - health issues	25	260
CDB - oxidation - fermentation - facultative properties	18	94
CDB - oxidation - reduction - redox - biochemistry - electron transfer	18	204
CDB - phosphate esters - prospects - plasticizers - toxicity concerns	25	260
CDB - phosphoric acid - health - toxicity effects	25	250
CDB - Phosphoric acid identification - lab notes revision	24	271
CDB - Phosphoric acid identification - lab notes revision	24	281
CDB - phosphoric acid identification - titration	24	226
CDB - phosphoric acid identification - titration - amended lab notes	24	227
CDB - Phosphorus introduction into culture - prospect	23	168
CDB - Plastic - reference	15	186
CDB - plastics - phthalates - referenced	16	200
CDB - polarimetry - red layer formation - investigations	16	222
CDB - polymer - detergent - soap - formation - reference	18	266
CDB - polymerization - comments	9	25
CDB - polymerization - studies	9	83
CDB - polymerization - studies	9	126
CDB - polyvinyl alcohol - applications - artificial skin - tissue - prosthetics - notes	24	308
CDB - polyvinyl alcohol - applications - artificial skin - tissue - prosthetics - notes	24	308
CDB - polyvinyl alcohol - repeat reference	24	307
CDB - polyvinyl alcohol - synthetic production - note	24	308
CDB - presence of lipids - observation	5	168
CDB - Protein	22	169
CDB - Protein	22	178
CDB - Protein - HEPA air filter extraction - protein comparison	19	30
CDB - protein - aldehyde prospects - toxicity concerns	24	91

CDB - protein - amino acid candidates	24	12
CDB - Protein - Elemental identification - AC voltammetry	21	351
CDB - protein - gas chromatography - complex peaks	19	168
CDB - Protein - HEPA - rainwater comparisons	19	33
CDB - Protein - HEPA - rainwater comparisons - equivalency	19	35
CDB - Protein - HEPA - rainwater comparisons - equivalency -IR	19	36
CDB - Protein - IR analysis	21	251
CDB - Protein - IR analysis	21	349
CDB - protein - liquid chromatography - aldehyde prospects	24	84
CDB - protein - liquid chromatography - separations - methods development	24	55
CDB - protein - metabolic products - listing	24	16
CDB - protein - molecular weight estimation - investigations	18	358
CDB - protein - pH measurement - strongly acidic	24	12
CDB - protein - precipitate - alkaline solution	17	13
CDB - Protein - Pyrolysis - Gas Chromatography	21	359
CDB - Protein - Pyrolysis - Health Impact	21	17
CDB - Protein - Pyrolysis - Health Impacts	21	358
CDB - protein - pyrolysis fingerprint	19	226
CDB - protein - redox reaction - observation	24	7
CDB - protein - reducing sugar - analysis	24	15
CDB - protein - secreted - alkenes, alcohol, ether, nitrogen, iron	17	9
CDB - protein - soluble - solid comparisons	25	191
CDB - Protein- Bradford test - verification	19	41
CDB - Protein concentration	20	52
CDB - protein concentration methods - cultures	20	62
CDB - protein detection - early investigations	5	14
CDB - protein development - methods development - early investigations	5	280
CDB - protein disruption - oxygen - oxidation - summary statement	9	207
CDB - protein formation - variety of	23	147
CDB - protein production - Bradford test - positive	18	207
CDB - Protein Pyrolysis - Severe skin reaction	21	137
CDB - Protein regeneration?	20	149
CDB - protein secretion	20	11
CDB - protein secretion - genetic engineering prospect	19	185
CDB - protein secretion - genetic engineering reference	18	215
CDB - proteins - extraction method vs secretion method - distinct proteins	17	70
CDB - proteins - molar mass determination - titration - methods development	24	211
CDB - proteins - precipitate and secreted forms - IR comparison	20	55
CDB - proteins - toxicity assessments	24	118
CDB - purification - methods development - investigations	4	302
CDB - pyrolysis - gas chromatography - investigations	19	167
CDB - Pyrolysis - IR Spectrum	22	357

CDB - pyrolysis - neck rash analysis - body susceptibility	20	141
CDB - rainfall extractions - HEPA air filters - comparisons - similarities	16	200
CDB - red protein layer - prior references - Vol 17 - Vol 16	18	204
CDB - secreted protein - heat influences and observations - colorimetric	20	147
CDB - secreted protein - IR spectrum	18	341
CDB - sheen - hydrocarbon detection - investigations	18	96
CDB - sheen layer - fails lipid emulsion test	18	96
CDB - sheen production - investigations	18	86
CDB - soluble protein - alcohol prospects	24	250
CDB - soluble protein - fermentation prospects - aldehydes - toxicity concerns	24	105
CDB - Soluble protein - molecular weight determination - methods development	24	5
CDB - spectroscopy - VIS - iron - ferric - ion - determination of	2	318
CDB - starter cultures - purification of cultures	23	148
CDB - structural analysis - preliminary	21	369
CDB - Sugar consumption	17	4
CDB - sulfate component assessment	24	263
CDB - sulfur prospects	20	62
CDB - survival - adaptability - comments	24	342
CDB - Thioamides prospect - immuno suppressive properties - comments	24	323
CDB - Thioamides prospect - thyroid interference - hypothyroidism - comments	24	322
CDB - Toxicology study - brine shrimp	24	366
CDB - tyrosine - amino acids - investigations	17	61
CDB - Ultrasound investigations	21	28
CDB - Urine Cultures	22	265
CDB - VIS spectrometry - observations - investigations	2	125
CDB - VIS spectrometry - observations - investigations - assessments	2	198
CDB - VIS spectrometry - observations - investigations - assessments	2	209
CDB (Cross Domain Bacteria) - IR spectrum - gas analysis - headspace	23	12
CDB characteristics - summary	18	86
CDB culture - agar methods developed	23	193
CDB Culture - basic medium - iron content	18	39
CDB culture - bile - trials - methods development - early generation	6	18
CDB culture - blue color reference - advanced development	18	281
CDB culture - deep purple color observations repeated	23	140
CDB culture - detergent - time lapse - enzymes - substantial filament production	18	224
CDB culture - DNA - filaments - distinctions - initial investigations	18	181
CDB -culture - early generation - effects upon - acid - alkaline - antioxidant - bleach	2	19
CDB -culture - early generation - effects upon - CO2 - Fenton's reaction - hydroxyl	2	19
CDB -culture - early generation - effects upon - CO2 - MMS - oxidizer - summary	2	19
CDB culture - EPA filament - fundamental equivalence - confirmation	25	133
CDB culture - extensive filament growth and development observed	23	138
CDB culture - filament network confirmed	18	43

CDB culture - HEPA - agar medium - observations	23	234
CDB culture - HEPA filter - microwave digestion - IR spectrum	23	151
CDB culture - inhibition prospects from advanced growth rate	23	153
CDB culture - Inhibition study - electromagnetic - initial observations	23	172
CDB culture - inhibition study - weak ultrasound - initial observations	23	174
CDB culture - lipids extraction - methods development	6	15
CDB culture - metabolic growth forms listed	23	152
CDB culture - methods development - early generation	6	6
CDB culture - nitrites - alcohol - biofilm production	18	94
CDB culture - phosphate - enhances growth - CRITICAL OBSERVATION	23	232
CDB culture - phosphate - negative growth inhibition conclusion	23	228
CDB culture - phosphate concentration - dosage studies	23	187
CDB culture - phosphate dosage studies	23	190
CDB culture - phosphate influence - initial observations	23	177
CDB culture - phosphate reactions - dosage studies	23	191
CDB culture - phosphates - value is in the rate and amount of growth	23	400
CDB culture - phosphates cause increased growth, not inhibitory	23	233
CDB culture - phosphates introduction - low dosage - strong reactions	23	194
CDB culture - phosphorus analyses - interference - health postulations	23	189
CDB culture - preliminary inhibition trials - ultrasound - electromagnetics	23	154
CDB culture - protein - concentration - purification	23	399
CDB culture - protein - pyrolysis - serious health risks restated	23	227
CDB culture - protein - sucrose relative concentration studies	23	225
CDB culture - protein purification - denaturation - gravity - centrifuge	23	301
CDB culture - protein verification - VIS spectroscopy	23	165
CDB culture - sputum comparisons - IR analysis	23	301
CDB culture confirmation methods - sheen filament network - nitrites	18	39
CDB culture growth - dramatic advancements in methods apparent	23	210
CDB culture methods - radical and major improvements - progress report	23	132
CDB culture microscopy	18	39
CDB culture production	18	200
CDB culture variations	18	222
CDB cultures - agar medium - "film" production	23	214
CDB cultures - agar medium observations	23	198
CDB cultures - growth observations	23	201
CDB cultures - growth observations	23	272
CDB cultures - growth observations	23	294
CDB cultures - intermediate media constitution	23	134
CDB cultures - microscopy analysis - observations	18	252
CDB cultures - microwave digestion methods - progress reports	23	134
CDB cultures - more advanced growth forms observed	23	137
CDB cultures - phosphate introduction - inhibition observations	23	199

CDB cultures - phosphate IR comparisons	23	360
CDB cultures - phosphate vs. non-phosphate growth comparison	23	294
CDB cultures - phosphates - observations	23	197
CDB cultures - protein detection - UV VIS spectroscopy	23	204
CDB cultures - protein production - large volume & purification methods in place	23	213
CDB cultures - protein production methods established	23	212
CDB cultures - soluble and solid protein production result	23	213
CDB culturing - "cellular" development and organization	23	144
CDB culturing - expanded trials - intermediate media constitution	23	143
CDB Culturing - Improvement of methods desired and stated	23	123
CDB culturing - protein development - postulations	23	147
CDB culturing project - expanded due to successes and advances in place	23	142
CDB Culturing Success - readily available sample material (air collection)	23	131
CDB DNA - Attempt of professional laboratory identification - refusal of sample	24	303
CDB DNA - culture extraction prospects	23	153
CDB DNA - Laboratory refusal of identification - notes	24	310
CDB DNA acquisition - methods development - 2014 reference	18	164
CDB DNA confirmation - UV spectroscopy	18	239
CDB DNA extraction - confirmation - success	18	198
CDB DNA extractions - initial repeat trials	18	180
CDB DNA priority	18	162
CDB DNA priority - analysis - referenced - inadequate resources available	16	211
CDB growth inhibitors - listed	23	195
CDB HEPA agar culture - progress report	23	197
CDB HEPA Culture - IR spectrum - match to previous studies	23	167
CDB HEPA cultures - IR spectrum - protein analysis and match	23	207
CDB Microscopy Culture - filament confirmation	18	43
CDB Multiple protein separations - distinct attributes	17	70
CDB Nitrite production - verified	18	38
CDB polymer formation - reference	18	198
CDB polymer formation analysis - detergent reference	18	199
CDB protein - solid - amino adenosine prospect - ATP blockage - transcription inhibitor	25	69
CDB Protein - acidic	18	251
CDB protein - adhesive qualities - water soluble protein - polyvinyl alcohol prospect	24	313
CDB Protein - aldehyde - reassessment	24	281
CDB Protein - aldehyde - reassessment	24	282
CDB protein - amino acid constitution - postulates	23	367
CDB protein - analysis - infrared spectroscopy	20	58
CDB Protein - Attributes & Characteristics	21	355
CDB protein - commercial prospects - biodegradable plastics - medical organ/tissue	24	316
CDB protein - commercial prospects - energy production (redox) - waste breakdown	24	316
CDB protein - commercial prospects - repeated - lubricant - adhesive	24	316

CDB Protein - Component inventory - functional groups - listing - candidates	24	281
CDB protein - component inventory - revision list	24	314
CDB Protein - Conductivity	21	97
CDB protein - culture - acidic - observation	6	4
CDB Protein - denaturation	19	6
CDB protein - discovery - identified	17	14
CDB Protein - distillation - IR Spectrum	19	5
CDB Protein - distillation - IR Spectrum	19	17
CDB protein - heat denaturation	20	144
CDB protein - highly acidic	17	41
CDB Protein - Index of Refraction	19	15
CDB Protein - infrared spectrum	20	166
CDB Protein - Inventory candidates - alcohol - thiocyanates - protein - methyl group	24	281
CDB Protein - Inventory candidates - iron - phosphoric acid - nitrates -sulphates	24	281
CDB Protein - Inventory candidates - poly vinyl alcohol - fermentation	24	281
CDB protein - iron production - detection - oxidation - reduction	18	203
CDB protein - liquid chromatograph (LC) separations - IR spectroscopy	25	35
CDB protein - liquid chromatograph (LC) separations - IR spectroscopy - candidates	25	101
CDB Protein - moisture analysis - concentration	20	67
CDB protein - optical activity	20	77
CDB protein - phosphoric acid - early reference	6	19
CDB protein - phosphorus reference	6	4
CDB Protein - Plant Experiments	21	22
CDB protein - precipitation - observations	6	5
CDB protein - reagent development - revision - improvement - modification	25	215
CDB protein - solid - aromatic polar amine - conductive - prospect	25	82
CDB protein - solid - functional group candidates	25	52
CDB protein - solid - HCl solubility	25	9
CDB protein - solid - Initial investigations	25	5
CDB protein - solid - insolubility problems	25	6
CDB protein - solid - inventory candidate - prospect list - DNA interests	25	107
CDB protein - solid - IR spectroscopy	25	15
CDB protein - solid - iron detection	25	23
CDB protein - solid - LC separations - colorimetric protein detection	25	44
CDB protein - solid - liquid chromatography trial separations	25	25
CDB protein - solid - NIR spectroscopy	25	78
CDB protein - solid - pyrimidines - pyridines - prospects - DNA -discussion	25	105
CDB protein - solid - self replication - biological molecules - aminoadenosine - prospect	25	71
CDB protein - solid - soluble - comparison notes	25	23
CDB protein - solid - soluble - comparison notes - common denominators	25	214
CDB protein - solid - UV - VIS - NIR spectroscopy	25	14
CDB protein - solid -EPA filament - fundamental - important conclusions	25	121

CDB protein - viscous - plastic attributes	20	52
CDB Protein - Viscous Properties - Color	21	21
CDB Protein - Voltammetry techniques - elemental identification	21	248
CDB protein - water soluble - acidic	20	53
CDB protein - water soluble - acidic - positive iron - organometallic	20	60
CDB protein analysis - IR spectrum - thiocyanide detection	23	211
CDB protein attributes - summary	17	41
CDB protein attributes - summary	17	61
CDB protein development - index of refraction studies	23	355
CDB protein production - color observations	18	202
CDB protein production - genetic engineering reference	18	201
CDB protein production - incubation	18	201
CDB protein purification - salting out - success recorded	18	217
CDB protein secretion - dramatic advancements in methods apparent	23	210
CDB protein -water content	19	4
CDB -pyrolysis - carbon number analysis	19	249
CDB Pyrolysis - gas chromatography analysis	15	122
CDB Pyrolysis - infrared gas analysis	15	121
CDB secreted protein - density investigations	17	75
CDB secreted protein - oxidation - red color	17	76
CDB secreted protein - purification	17	78
CDB secreted protein - viscosity	17	78
CDB secreted protein attributes - investigations - summary	17	107
CDB sheen - lipid vs metallic formation - comparisons	18	88
CDB sheen - METALLIC FILM - investigations	18	87
CDB soluble protein - production, purification, collection	23	219
CDB soluble protein analysis - volatile organic compounds	23	215
CDB sucrose - protein IR comparisons - culture medium considerations	23	222
CDB sucrose - protein medium concentration studies - Brix	23	230
CDB sugar consumption - monitor - polarimetry	17	20
CH ratio - carbon hydrogen ratio - investigations - GC	15	39
Chemical Composition : Env. Filament - CDB - Rainfall Extraction - HEPA Filter	22	256
Chemical equation - balancing	1	40
Chemical groups summary - skin analyses - Environmental Filament - Air - Water	23	41
Chemical reaction types	1	45

Epitaph prospects	23	25
Equivalence : Crystal - Skin Formation - Env. Filament via IR spectroscopy	22	339
Equivalent Circuits - Electrical Impedance Spectroscopy	21	162
Ester - HEPA air filter	18	292
Ester - Rain and air sample analysis	20	168
Ester - Rainfall	22	200
Ester - skin sample - IR	19	158

Ester formation - alcohol - acid - investigations	16	66
Ester formation - chemistry - investigations	16	78
Esters - Amides - CDB	22	183
Exponential harmonics - differential equation - original research - root recovery	8	66
Exponential harmonics - differential equation - original research - root recovery	8	67
Exponential harmonics - differential equation - original research - root recovery	8	68
Exponential harmonics - original research - introduction of p(x) term	8	69
Exponential harmonics - original research (origin 1988) - solution recovery	8	65
Exponential harmonics - original research (origin 1988) - solution recovery	8	67
Exponential harmonics - original research (origin 1988) - solution recovery	8	68
Exponential Harmonics - referenced - original math research	16	108
Extraction methods - investigations	19	123
Fenton's reaction - iron - hydrogen peroxide - catalysts - metals - studies	3	195
Fenton's reaction - iron - hydrogen peroxide - studies	3	82
Ferric - chloride - complex - qualitative chemical testing	3	78
Ferric Ion - Urine Testing - Phosphate test developed	21	4
Ferricyanide - ascorbic acid - iron - cyanide - ion - combination - observations - studies	3	114
Ferricyanide - ferrocyanide - oxidation - reduction - comparisons - distinctions	3	151
Ferricyanide - sulfates - inorganic IR analyses evaluations	23	43
Ferricyanide detection - IR analysis - higher confidence of detection	23	40
Ferricyanide prospects - IR analysis - prussian blue - protein observations	23	33
Ferridoxin - Cross Domain Bacteria	22	169
Ferridoxin - Cross Domain Bacteria	22	188
Ferridoxin - Protein	22	188
Ferridoxin protein - CDB	22	169
Ferredoxins - bacteria - ancient cofactors in biology - iron sulfur clusters	21	367
Ferredoxins - blood - iron disruption	21	368
Ferredoxins - protein - moderate electron transfer	21	368
Filament - breakdown	1	12
Filament - Environmental - Amides - Nitro Group - Isothiocyanate - Protein	22	192
Filament - oral - wine - culture - observations	3	103
Filament extraction - oral - vitamin C method - developed - confirmed	17	312
Filament production - concentrated rainfall sample - methods development	15	51
Filament production - rainfall - Morgellons - reference	15	50
Filament reaction - saliva - investigations	17	311
Filament sample - oral - Vit C extraction method	18	5
Filaments - environmental - culture	2	113
Flame tests - qualitative chemical testing	3	76
Formal charge determination - notes	20	258
Free radical - ion - relationships - comparisons - studies	3	82
Free radicals	2	23
Free radicals - damage - health effects - summary observations	3	99

Free radicals - Iron - blood - ligands - respiratory inhibitors - summary	3	98
Free radicals - lipid peroxidation - proteins - lipids - nucleic acids - relationships	3	102
Free radicals - oxidant - oxidizer - relationship - comparison - equivalence	4	204
Free radicals - oxidation - relationships	3	90
Free radicals - reactivity of - electron deficiency - studies	2	279
Free radicals - revision notes	3	97
Free radicals - studies	4	121
Functional Group Listing	21	18
Functional Group Summary: Env. Filament - CDB - Rainfall Extraction - HEPA Filter	22	256
Functional groups - sulfur - protein - thiocyanate - esters - hydrocarbons	23	44
Functional groups identified - probability of existence - variety of samples	23	31
Gas analysis - methods development - gas chromatography	15	92
Gas chromatography - Alternate column - polarity - investigations	15	136
Gas chromatography - carbon number - investigations	15	202
Gas chromatography - gas identification - methods development	15	201
Gas chromatography - headspace samples - methods development	11	19
Gas chromatography - hydrocarbon analysis	19	172
Gas chromatography - hydrocarbon analysis	19	192
Gas chromatography - hydrocarbon analysis - modeling	19	241
Gas chromatography - investigations	11	41
Gas chromatography - investigations	11	144
Gas chromatography - investigations	11	163
Gas chromatography - investigations - methods development	19	199
Gas chromatography - methods development	10	221
Gas chromatography - methods development - investigations	10	232
Gas chromatography - methods development - investigations	10	283
Gas chromatography - molecular weight - carbon number - modeling	19	181
Gas chromatography - potential applications	16	65
Gas chromatography - predictive modeling investigations	19	137
Gas chromatography - pyrolysis methods developed	20	16
Gas chromatography - response factor - investigations	16	40
Gas chromatography - retention modeling - investigations	15	98
Gas chromatography - retention modeling - investigations	15	109
Gas chromatography - retention modeling methods	16	115
Gas chromatography - retention time modeling	16	15
Gas chromatography - retention time modeling	16	35
Gas chromatography - retention time modeling	16	43
Gas chromatography - retention time modeling	16	87
Gas chromatography - retention time modeling - applied	16	103
Gas chromatography - retention time modeling - polarity investigations	16	53
Gas chromatography methods developed - traps developed	20	15
Gas law	1	43

Gas reaction	1	43
GC (gas chromatography) control studies	20	28
Genetic engineering - CDB - notes	19	38
Genetic engineering - CDB - protein production - reference	17	107
Genetic engineering - CDB - protein production - reference	18	201
Genome size estimate - CDB - initial investigations	20	68
Genome size estimate - CDB - initial investigations	20	87
Geoengineering - bioengineering - relationships - comments	13	176
Geometric Formations - CDB	22	339
Geometric Formations - Cross Domain Bacteria	22	339
Global Validation research paper - spider web - Env. Filament distinction	21	139
Global warming - hypothesis	1	69
Glutathione - disulfide bonds - hydrogen peroxide - reduction - studies	4	122
Glutathione - health benefits - antioxidant - studies	4	123
Glutathione - reduction capability - iron - ferric - disulfide - hydrogen peroxide - studies	4	123
Hair - alkene - isocyanide - IR spectroscopy - investigations	16	215
Hair - chemical breakdown - observations	4	228
Hair - human - digestion - microwave - chemical - methods development	16	207
Hair - human - digestion - notes	16	76
Hair - human - HEPA air filter - comparisons - spectroscopy	18	259
Hair - phosphate - isocyanide - detection - referenced	16	214
Hair analysis - pyrolysis - investigations	11	153
Halogens - studies - considerations - investigations	4	172
Headspace analysis - gas chromatography - CDB gas production	20	139
Headspace investigations - GC	19	131
Headspace methods - investigations - GC - Gas Chromatography	15	41
Health - Neck - rash and swollen appearance	20	4
Health - observations - teeth	3	84
Health assessment - body temperature - thyroid - notes - comments	24	343
Health assessment - chronic respiratory concerns - colloidal silver notes	24	287
Health assessment - chronic respiratory concerns - ultrasound - methyl salicylate notes	24	287
Health assessment - fatigue - weight - digestion - comments - notes	24	345
Health assessment - gall stones - ultrasound notes	24	288
Health assessment - methyl salicylate - CDB microbial mitigation - comments	24	334
Health assessment - methyl salicylate - CDB microbial mitigation - comments	24	338
Health assessment - methyl salicylate - CDB microbial mitigation - investigations	24	289
Health assessment - nerve - joint - impact - network - migration - notes - observations	24	341
Health assessment - observations - notes - comments	24	348
Health assessment - potential connections between upper right torso - hearing issues	24	286
Health assessment - potential therapies - comments - notes	24	347
Health assessment - ultrasound - CDB microbial mitigation - investigations	24	289
Health assessment - ultrasound therapy - CDB microbial mitigation - comments	24	334

Health assessment - ultrasound therapy prospects - notes - observations	24	327
Health assessment - ultrasound therapy prospects - notes - observations	24	330
Health assessment - ultrasound therapy prospects - notes - observations	24	338
Health assessments - active mitigation/therapeutic strategies - comments	25	393
Health assessments - blood - ear fluid - filaments - neural - research papers - comments	25	393
Health assessments - blood examinations - research paper references - comparisons	25	402
Health assessments - extraordinary observations and findings	25	405
Health assessments - loss of teeth - notes	25	387
Health assessments - personal - anecdotal - notes - ear - fluid - deafness notes	24	286

Health assessments - personal - anecdotal - notes - ultrasound - thyroid - CDB	24	245
Health assessments - professional ultrasound examination	24	286
Health assessments - thyroid - Near Infrared (NIR) investigation	25	396
Health assessments - thyroid - nodule - fats - oils prospect - ear fluid - comparison	25	400
Health assessments - ultrasound - methyl salicylate - TEMS - comments	25	395
Health effects - damage - free radicals - summary observations	3	99
Health effects - Lipid - peroxidation - transition metals - iron - free radicals	3	101
Health issues - inventory list - research paper preparation	4	220
Health observations - neck reaction - CDB pyrolysis - notes	20	190
Health observations - neck reaction - CDB pyrolysis - notes	20	293
Health observations - personal - anecdotal	23	297
Health practitioner responsibilities - notes	19	154
Hemoglobin - blood - iron - ferric - concentration level - methemoglobinemia	2	264
Hemoglobin - blood - iron - oxidation - ferrous - ferric - concentration level - estimate	2	264
Hemoglobin - concentration determination - methods development - assessments	2	272
HEPA - Liquid Chromatography IR analysis	21	50
HEPA air filter - extraction - Ester observation	18	292
HEPA air filter - liquid chromatography - separation - observation	18	267
HEPA air filter - protein - positive test - LC separation - observation	18	268
HEPA air filter - protein - positive test - LC separation - observation	18	271
HEPA air filter - protein - positive test - LC separation - observation	18	273
HEPA air filter - protein - positive test - UV spectroscopy - Bradford	18	277
HEPA air filter - protein - positive test - UV spectroscopy - observation	18	275
HEPA air filter - protein extraction - confirmations	18	332
HEPA air filter - protein identification	20	171
HEPA air filter - protein isolation	18	305
HEPA air filter - protein isolation - methods development	18	305
HEPA air filter - rainwater equivalence - organic signature (IR)	20	179
HEPA Air Filter - Rainwater Extraction comparison - IR	21	55
HEPA Air Filter Analysis	22	258
HEPA Air Filter Analysis - Multiple methods	21	57

HEPA Air Filter Extraction - Protein testing	21	70
HEPA air filter extraction - UV spectrometry	18	261
HEPA commercial filter - CDB culture - progress report	23	127
HEPA commercial filter - CDB culture filament growth - 24 hrs visible	23	130
HEPA commercial filter - CDB filament growth - rapid development	23	130
HEPA commercial filter - high level of 'environmental filaments" present	23	123
HEPA commercial filter - microwave digestion - culture - progress report	23	129
HEPA commercial filter - microwave digestion methods developed	23	124
HEPA commercial filter cultures - first observations - CDB growth	23	120
HEPA commercial filter cultures - secondary observations - CDB growth	23	122
HEPA extraction - protein confirmation - method development	18	277
HEPA filter - commercial - direct observation of "environmental filaments"	23	119
HEPA filter - rainfall extract - CDB protein - equivalence - comparisons	16	199
HEPA Filter Analysis	22	258
HEPA filter analysis - initial	16	70
HEPA filter cultures - commenced	23	118
HEPA filter separations - summary - liquid chromatography - LC	18	289
HEPA filters - biologicals - iron - identification	25	346
HEPA infrared analysis	21	39
HEPA liquid chromatography separation - infrared spectrum notes	19	21
HEPA liquid chromatography separation IR spectrum	19	26
HF - Amateur Radio	22	33
High frequency radio propagation index - development	23	169
High Frequency Studies - Amateur Radio	22	33
Histidine - amino acid - investigations	4	20
Histidine - environmental - biological filament - reference	4	190
Hormone, thyroid, blood disruption	17	62
Human Hair - digestion methods developed	21	270
Human Hair - Microwave digestion	21	125
Human Hair - Spider Webs - Env. Filament comparisons	21	277
Human Hair - UV - NIR - Spider web - Keratin - comparison	21	126
Human Hair - UV analysis - microwave digestion	21	148
Hydrocarbon gas production - CDB - GC analysis	20	136
Hydrocarbons present - Rain and Air samples	20	168
Hydrogen peroxide - formation of - peroxisomes - living organisms	2	282
Hydrogen peroxide - free radicals - studies	4	122
Hydroxyl - ion - radical - functional group - distinction - studies	4	204
Identification - unknown compounds - methods development	16	84
Identification of unknown sample - investigations - methods application	16	129
Illness - reference	4	4
Illness - reference	4	286
Inductively coupled plasma - mass spectrometry - environmental filament	20	163

Infrared - Trap - Gas Chromatography (GC) Method developed	20	6
Infrared (IR) spectroscopy - alcohol - carboxylic acid - investigations	8	128
Infrared (IR) spectroscopy - carboxylic acid - investigations	8	127
Infrared (IR) spectroscopy - environmental - biological - filament - comparison	4	201
Infrared (IR) spectroscopy - first generation instrument - culture studies	4	139
