

Carnicom Insitute : Index of Laboratory Notebooks (In Progress)

Volumes 1, 2 (partial) and 15-22 completed

Topic	Volume	Page
A Point of Reckoning - Notes	20	172
A Point of Reckoning - Parts I, II, III, IV - Notes	20	206
A Point of Reckoning II - notes	20	182
A Point of Reckoning III notes	21	90
AC Voltammetry - electrochemistry - methods development	18	155
acid - influence	2	19
acid concentration - pH	1	47
Acidic protein - CDB	17	41
Acidic protein - CDB	18	251
Agriculture - CDB Protein Experiments	21	22
Air Filter - HEPA - spectroscopy - extraction	18	257
Air filter - rainfall IR analysis - similarity reported	21	38
air filter analysis - initial	16	70
Air filter analysis - IR - HEPA	21	39
Air filter LC separations - protein identifications	21	88
Air HEPA Filter Analysis	22	258
Alcohol - cuvettes reaction	18	78
alkaline - influence	2	19
Amateur Radio Studies	22	4
Amide Identification - Cross Domain Bacteria	20	9
Amides - CDB	22	163
Amides - CDB	22	172
Amides - Cross Domain Bacteria	22	166
Amides - Esters - CDB	22	183
Amides - Isothiocyanate	22	192
Amides - Nitro Group - Isothiocyanate - Protein - Env. Filament	22	192
Amides -Environmental Filament	22	192
Amine test - positive result - oral sample	18	6
Amines - positive test - oral filament - biofilm oral extraction	18	30
Amino acid - chart -reference	17	72
Amino Acids - CDB	22	174
Amino Acids - interference - investigations - CDB secreted protein	17	117
Amino Acids - investigations - CDB secreted protein	17	119
Angina (potential) episode - Tucson period - CEC	22	179
Antenna Analysis	22	112
Antenna Analysis	22	159
Antenna Studies	22	33
Anthocyanin (cranberry - wine) extraction - nitrite production - culture	18	36
Anthocyanins - metal complex formation	17	325
antioxidant - influence	2	19
Artificial spider webs	21	136
Ashing - Microwave Digestion methods developed	21	223
ATR (attenuated total reflection) - IR spectroscopy - pH neutralization methods	16	207
ATR (attenuated total reflection) - IR - digestion - salt crystal - methods	21	269
Azeotrope - boiling point methods - investigations	15	189
Bacteria - esters - phosphates - references	15	49
Bacterial identification methods - reference	15	64
balance chemical equation	1	40
barium - aluminum - specific heat	1	64
Biochemical analyzer - colorimetric test development - investigations	17	166
Biofilm - chronic cough - relationship - assessment	17	306
Biofilm - composition - bacteria	17	306

Biofilm - polysaccharides - protein - DNA	17	306
Biofilm - quorum sensing - bacteria	17	306
Biofilm - reduction - "sugar cutting" enzymes	17	307
Biofilm - vitamin C - colorimetric tests - investigations	17	319
Biofilm extraction - polysaccharide - protein detection - Vit C extraction	18	23
Biomarkers - nitrite production - biofilm	17	306
Biomolecules - colorimetric test development - investigations	17	303
Biuret reagent - protein concentration - difficulties	17	230
Biuret reagent - protein concentration - difficulties	17	248
bleach - influence	2	19
blood - artificia	1	13
Blood - CDB culture variation	18	296
blood - disruption - ferredoxins	21	368
Blood - infrared spectroscopy - ATR - sample preparation	16	215
Blood - IR analysis	21	308
blood - iron consumption	2	91
blood - morgellons	2	104
Blood - nitrite testing	18	47
Blood - protein concentration - investigations - test developed	17	293
blood - test methods	1	6
blood - testing	1	14
blood - VIS spectrometry	2	104
Blood composition - investigations	17	278
Boiling point - azeotrope - investigations	15	189
bonds - ionic - covalent	1	67
Bradford protein test - detection limits - concentration	17	200
Bradford test - dipeptide - investigations	19	52
Brain wave testing - initial investigations	18	107
Breath - Human - Gas Chromatography (GC) analysis	20	25
Calcium testing	21	198
Calorimetry - laboratory methods - development - investigations	16	146
Calorimetry - laboratory methods - development - investigations	16	171
Carbon black discovery - rainwater sample	20	178
carbon dioxide - influence	2	19
Carbon dioxide production - CDB	17	18
Carbon monoxide - bacterial production - reference	19	148
Carbon monoxide - investigations - GC	19	127
Carbonyl groups - esters - ethers - ketones - investigations	16	77
Carnicom Insitute (CI) - Active projects -summary	18	163
CBD Culture method notes - white - brown - sugar comparisons	18	49
CDB	2	19
CDB - (Cross Domain Bacteria)	22	183
CDB - advanced culture development - observation	18	264
CDB - agar culture method	18	266
CDB - alcohol production	18	203
CDB - alcohol production prospect	18	63
CDB - amide - protein identification - UV spectroscopy	20	12
CDB - Amide Identification - Charred protein	20	9
CDB - Amides	22	166
CDB - Amides - Esters	22	183
CDB - amides - iron sulfur protein - ferridoxin - initial structure hypothesis	21	372
CDB - Amino Acids	22	174
CDB - amino acids - initial investigations	20	60
CDB - Amino acids - notes	19	39
CDB - Anaerobic prospects	18	206
CDB - black filament production - culture observations	18	221
CDB - blood - alkyne testing - positive result - referenced	16	217
CDB - blood culture	18	296

CDB - blue color - advanced culture - observation	18	264
CDB - Boiling point - result	15	49
CDB - carbon dioxide production	16	132
CDB - carbon monoxide production	16	140
CDB - charred protein - Bradford test	19	167
CDB - coccus form - culture variations	18	244
CDB - color observations	18	224
CDB - color observations - alcohol production - transition metal - referenced	16	216
CDB - Cross Domain Bacteria	22	163
CDB - culture	2	4
CDB - culture - aerobic metabolism confirmed	19	214
CDB - culture - coccus form isolation	18	264
CDB - culture - colored layer formation - referenced	16	200
CDB - culture - filament production	18	235
CDB - culture - filament production - media	18	240
CDB - culture - metabolic gas production - investigations	19	122
CDB - culture - notes	19	164
CDB - culture - pH observations	18	223
CDB - culture - skin condition - equivalency	19	154
CDB - Culture Elemental Analysis - Protein Production	20	51
CDB - culture growth observation	2	20
CDB - culture inhibition prospect	2	20
CDB - culture medium variations	18	223
CDB - culture medium variations	18	263
CDB - culture methods - colored layer production - reference	16	181
CDB - culture methods - oxidation state measurements - ORP	16	183
CDB - culture protein - HEPA extraction - color comparison	21	60
CDB - cultured red layer formation - alkynes test - positive test - referenced	16	216
CDB - direct protein production - query	18	215
CDB - DNA - culture mediums - protein extraction identification - summary	18	306
CDB - DNA - genetic engineering - references	18	206
CDB - Ferridoxin protein	22	169
CDB - filament production - reference	18	205
CDB - film layer observations	18	49
CDB - gas chromatography analysis	20	46
CDB - gas production - carbon monoxide - acetone - observations	15	214
CDB - gas production - metabolism - carbon monoxide - CO2 - observations	15	204
CDB - gas production - nitrogen utilization	20	18
CDB - gas production - observation	15	198
CDB - Genetic engineering - notes	19	38
CDB - Genome size estimation - initial investigations	20	87
CDB - Geometric - Microscopy	22	339
CDB - Geometric Formations	22	339
CDB - growth - blood	2	114
CDB - Headspace analysis - GC - IR	20	139
CDB - HEPA filter extraction - filament observation - protein confirmation	18	278
CDB - high infrared absorption - qualitative observation	20	74
CDB - Hydrocarbon analysis - molecular weight investigation - protein	19	176
CDB - Hydrocarbon gas production	20	136
CDB - hydrocarbon production	15	212
CDB - hydrocarbon production	17	10
CDB - hydrocarbon production	19	215
CDB - hydrocarbon production	19	252
CDB - Incubated culture - Protein secretion - protein production	20	12
CDB - Index of refraction model developed	20	150
CDB - investigations - bacteria	15	19
CDB - Iron test - secreted protein	20	60
CDB - Lipid extraction - Infrared spectrum	19	11

CDB - Lipid extraction - Infrared spectrum	19	14
CDB - Log P estimations	20	142
CDB - metabolic gas production - analysis	20	21
CDB - Metabolic gas production analysis - gas chromatography	20	128
CDB - metabolism - gas production - nitrogen production	17	51
CDB - metallic film layer - formation - prospects	18	96
CDB - molecular weight estimation	19	217
CDB - Molecular weight estimation	19	6
CDB - Near Infrared (NIR) analysis	21	253
CDB - Nitrate production	21	249
CDB - oxidation - fermentatiion - facultative properties	18	94
CDB - oxidation - reduction - redox - biochemistry - electron transfer	18	204
CDB - Plastic - reference	15	186
CDB - plastics - phthalates - referenced	16	200
CDB - polarimetry - red layer formation - investigations	16	222
CDB - polymer - detergent - soap - formation - reference	18	266
CDB - Protein	22	169
CDB - Protein	22	178
CDB - Protein - HEPA air filter extraction - protein comparison	19	30
CDB - Protein - Elemental identification - AC voltammetry	21	351
CDB - protein - gas chromatography - complex peaks	19	168
CDB - Protein - HEPA - rainwater comparisons	19	33
CDB - Protein - HEPA - rainwater comparisons - equivalency	19	35
CDB - Protein - HEPA - rainwater comparisons - equivalency -IR	19	36
CDB - Protein - IR analysis	21	251
CDB - Protein - IR analysis	21	349
CDB - protein - molecular weight estimation - investigations	18	358
CDB - protein - precipitate - alkaline solution	17	13
CDB - Protein - Pyrolysis - Gas Chromatography	21	359
CDB - Protein - Pyrolysis - Health Impact	21	17
CDB - Protein - Pyrolysis - Health Impacts	21	358
CDB - protein - pyrolysis fingerprint	19	226
CDB - protein - secreted - alkenes, alcohol, ehter, nitrogen, iron	17	9
CDB - Protein- Bradford test - verification	19	41
CDB - Protein concentration	20	52
CDB - protein concentration methods - cultures	20	62
CDB - protein production - Bradford test - positive	18	207
CDB - Protein Pyrolysis - Severe skin reaction	21	137
CDB - Protein regeneration?	20	149
CDB - protein secretion	20	11
CDB - protein secretion - genetic engineering prospect	19	185
CDB - protein secretion - genetic engineering reference	18	215
CDB - proteins - extraction method vs secretion method - distinct proteins	17	70
CDB - proteins - precipitate and secreted forms - IR comparison	20	55
CDB - Pyrolysis - IR Spectrum	22	357
CDB - pyrolysis - gas chromatography - investigations	19	167
CDB - pyrolysis - neck rash analysis - body subsceptibility	20	141
CDB - rainfall extractions - HEPA air filters - comparisons - similarities	16	200
CDB - red protein layer - prior references - Vol 17 - Vol 16	18	204
CDB - secreted protein - heat influences and observations - colorimetric	20	147
CDB - secreted protein - IR spectrum	18	341
CDB - sheen - hydrocarbon detection - investigations	18	96
CDB - sheen layer - fails lipid emulsion test	18	96
CDB - sheen production - investigations	18	86
CDB - structural analysis - preliminary	21	369
CDB - Sugar consumption	17	4
CDB - sulfur prospects	20	62

CDB - tyrosine - amino acids - investigations	17	61
CDB - Ultrasound investigations	21	28
CDB - Urine Cultures	22	265
CDB - VIS spectrometry - initial	2	125
CDB characteristics - summary	18	86
CDB Culture - basic medium - iron content	18	39
CDB culture - blue color reference - advanced development	18	281
CDB culture - detergent - time lapse - enzymes - substantial filament production	18	224
CDB culture - DNA - filaments - distinctions - initial investigations	18	181
CDB culture - filament network confirmed	18	43
CDB culture - nitrites - alcohol - biofilm production	18	94
CDB culture confirmation methods - sheen filament network - nitrites	18	39
CDB culture microscopy	18	39
CDB culture production	18	200
CDB culture variations	18	222
CDB cultures - microscopy analysis - observations	18	252
CDB DNA acquisition - methods development - 2014 reference	18	164
CDB DNA confirmation - UV spectroscopy	18	239
CDB DNA extraction - confirmation - success	18	198
CDB DNA extractions - initial repeat trials	18	180
CDB DNA priority	18	162
CDB DNA priority - analysis - referenced - inadequate resources available	16	211
CDB Microscopy Culture - filament confirmation	18	43
CDB Multiple protein separations - distinct attributes	17	70
CDB Nitrite production - verified	18	38
CDB polymer formation - reference	18	198
CDB polymer formation analysis - detergent reference	18	199
CDB Protein - acidic	18	251
CDB protein - analysis - infrared spectroscopy	20	58
CDB Protein - Attributes & Characeristics	21	355
CDB Protein - Conductivity	21	97
CDB Protein - denaturation	19	6
CDB protein - discovery - identified	17	14
CDB Protein - distillation - IR Spectrum	19	5
CDB Protein - distillation - IR Spectrum	19	17
CDB protein - heat denaturation	20	144
CDB protein - highly acidic	17	41
CDB Protein - Index of Refraction	19	15
CDB Protein - infrared spectrum	20	166
CDB protein - iron production - detection - oxidation - reduction	18	203
CDB Protein - moisture analysis - concentration	20	67
CDB protein - optical activity	20	77
CDB Protein - Plant Experiments	21	22
CDB protein - viscous - plastic attributes	20	52
CDB Protein - Viscous Properties - Color	21	21
CDB Protein - Voltammetry techniques - elemental identification	21	248
CDB protein - water soluble - acidic	20	53
CDB protein - water soluble - acidic - postive iron - organometallic	20	60
CDB protein attributes - summary	17	41
CDB protein attributes - summary	17	61
CDB protein production - color observations	18	202
CDB protein production - genetic engineering reference	18	201
CDB protein production - incubation	18	201
CDB protein purification - salting out - success recorded	18	217
CDB protein -water content	19	4
CDB -pyrolysis - carbon number analysis	19	249
CDB Pyrolysis - gas chromatography analysis	15	122
CDB Pyrolysis - infrared gas analysis	15	121
CDB secreted protein - density invesigations	17	75

CDB secreted protein - oxidation - red color	17	76
CDB secreted protein - purification	17	78
CDB secreted protein - viscosity	17	78
CDB secreted protein attributes - investigations - summary	17	107
CDB sheen - lipid vs metallic formation - comparisons	18	88
CDB sheen - METALLIC FILM - investigations	18	87
CDB sugar consumption - monitor - polarimetry	17	20
CH ratio - carbon hydrogen ratio - investigations - GC	15	39
Chemical Compositon : Env. Filament - CDB - Rainfall Extraction - HEPA Filter	22	256
chemical equation - balancing	1	40
chemical reaction types	1	45
chemicals	1	5
chloride - iron ion tests	1	80
chloride tests - wine	1	115
Chromatography - GC - LC - investigations	19	73
Chromatography - paper - investigations	17	163
Chronic cough - biofilm - relationship	17	306
co2 - influence	2	19
CO2 Analysis - Room Air - Human Breath	20	39
Cobalt test developed - UV - colorimetric	21	186
Colimetric test developed - protein	20	78
Colorimetric Tests - Oral sample	18	5
Colorimetric tests - proteins - reagent factors - difficulties	17	249
Colorimetric Tests - transition metals -developed - cobalt	21	183
Combustion analysis - investigations	19	202
Combustion analysis methods - investigations	19	53
Combustion analysis methods - investigations	19	78
Computational chemistry - investigations	18	262
Computational chemistry - investigations - MOPAC	17	108
concentration determination	1	19
conductivity	1	46
conductivity - culture	1	75
conductivity - wine	1	72
Conductivity Analysis - Human Hair - Spider web - Env. Filament - EIS	21	163
conductivity culture	1	49
Conference Tucson	22	79
Coordination complex formation - investigations	17	326
copper - culture reactions	1	79
copper smelting	1	6
copper sulfate	1	7
copper sulfate solution	1	15
covalent - ionic	1	67
Critical Frequency - UV light relationships	22	124
Critical Frequency - CF	22	4
Critical Frequency - Electron density relationship	22	140
Critical Frequency Analysis - Ionosphere Study	22	109
Critical Frequency Increase - Study Conclusion	22	124
cross domain bacteria	2	19
cross domain bacteria	2	19
Cross Domain Bacteria - Amide identification	20	9
Cross Domain Bacteria - Amides	22	166
Cross Domain Bacteria - Cultures - Secreted Protein Production	20	51
Cross Domain Bacteria - Ferridoxon	22	169
Cross Domain Bacteria - Geometric Formations	22	339
Cross Domain Bacteria - Protein	22	169
Cross Domain Bacteria - Protein	22	178
Cross Domain Bacteria (CDB)	22	183
Crystal - Skin Formation - Env. Filament equivalence via IR spectroscopy	22	339

Crystal field theory - investigations	17	327
Crystal sample - unknown material - identification methods	16	137
Crystal sample - unknown material - identification methods - electrochemistry	16	169
Crystal sample - unknown material - properties - identification - methods	16	134
Crystal sample - unknown material identification - potassium chloride conclusion	16	180
culture - acid influence	2	19
culture - acidic influence	2	17
culture - alkaline influence	2	19
culture - antioxidant influence	2	18
culture - antioxidant influence	2	19
culture - bleach growth impacts	1	97
culture - bleach influence	2	19
culture - carbon dioxide influence	2	19
culture - chloride ion tests	1	82
culture - co2 influence	2	19
culture - comparison	2	5
culture - conductivity	1	46
culture - conductivity	1	49
culture - conductivity	1	75
culture - copper reactions	1	79
culture - DNA	1	36
culture - electrochemical testing	1	52
culture - electrolysis	1	52
culture - fenton's reaction influence	2	19
culture - free radical growth	2	12
culture - growth - inhibition	2	15
culture - growth evaluation	2	14
culture - growth medium success	1	123
culture - hydroxyl radical	2	19
culture - iron - wine medium	1	123
culture - iron hydroxides	1	111
culture - iron metabolism	1	119
culture - iron metabolism	1	121
culture - iron oxidation - reduction	1	122
culture - iron reduction	1	83
culture - iron tests	1	83
culture - medium additions	2	9
culture - medium development	1	108
culture - mms influence	2	19
culture - oxidant influence	2	10
culture - oxidant influence	2	16
culture - oxidizer growth effects	1	97
culture - oxidizer influence	2	19
culture - pH	1	118
culture - silver reactions	1	75
culture - sugar	2	10
culture - summary of influences	2	19
culture - trial medium growth	1	91
culture - VIS spectrometry	2	109
Culture - vitamin C - cranberry (anthocyanin) extractions - comparisons	18	44
culture growth - alkaline	1	107
culture growth - baking soda	1	105
culture growth - controlled mediums	1	91
culture growth - iron	1	90
culture growth - oxidizers	1	100
culture medium - synthetic wine	2	4
culture medium - wine	2	4
Culture mediums - CDB - investigations - variations	18	243
Culture mediums - CDB - investigations - variations	18	246
culture mediums - successful	2	4

Culture method - filament network - anthocyanin culture - nitrite production	18	37
Culture method development - biofilm extraction	18	31
Culture method development - oral filament - cranberry - anthocyanin extraction	18	36
culture tests	1	11
culture tests - blood iron wine	1	85
Culture variations - CDB	18	222
Cyanogen - Derivative	22	359
Delusional Parasitosis - claim	20	210
Delusional Parasitosis - Peer review claim - IP - International	18	171
Demise of Rainwater - research paper posted - reference	15	20
Desertification	18	16
Digestion - chemical - microwave - environmental filament - hair - application	16	210
Digestion - hair - chemical - microwave	16	213
Dipole moments - gas chromatography - modeling - investigations	15	109
Distillation - methods development - investigations	15	179
Distillation - methods development - investigations	16	121
DNA - alcohol influence - UV spectroscopy	18	249
DNA - CDB - protein - culture medium - sugar variation - summary statement	18	240
DNA - culture	1	36
DNA - protein - extraction - purification - summary statement	18	219
DNA acquisition - CDB - 2014 reference to previous success	18	164
DNA acquisition - priority	18	161
DNA acquisition - CDB - methods development - 2014 reference	18	164
DNA CDB extraction - attempt	18	183
DNA CDB extraction - attempt	18	184
DNA CDB extraction - confirmation recorded - IR spectroscopy analysis	18	193
DNA CDB extraction - culture developments	18	189
DNA CDB extraction - prospects - spectroscopic investigations	18	185
DNA CDB extractions - candidates for analysis	18	191
DNA CDB extractions - success recorded	18	192
DNA CDB extraction - IR spectroscopy confirmation - comparison	18	195
DNA control extractions - carrot	18	171
DNA control extractions - onion	18	168
DNA control extractions - potato - banana	18	173
DNA control extractions - summary	18	179
DNA control extractions - tomato	18	170
DNA extraction - 260/280 ratio analysis	18	187
DNA extraction - CDB - 2014 success referenced	18	166
DNA extraction - CDB - prospect	18	179
DNA extractions - difficulties	18	172
DNA frequency investigations	2	46
DNA functional group analysis	18	196
Drug testing - comprehensive - negative results	17	266
Drug testing - urine anomalies - false positives - investigations	17	266
ECG - electrocardiogram - investigations	18	105
EIS - Spectroscopy - Human Hair - Spider Web - Env. Filament Comparisons	21	162
Electrochemistry - unknown material identification - investigations	16	161
Electrical Impedance Spectroscopy - Human Hair - Env. Filament Comparison	21	160
Electrical impedance spectroscopy (EIS)	21	152
Electrical impedance spectroscopy (EIS) initial investigations	18	154
Electrical impedance spectroscopy (EIS) investigations	21	140
Electrochemical - iron detection - investigations	18	133
Electrochemistry - Elemental identification methods	21	266
Electrochemistry - investigations	19	111
Electrochemistry - reference methods developed	21	302
Electrochemistry - voltammetry - initial investigations	18	117
Electrochemistry methods developed - summary	21	297
electrolysis	1	58

electrolysis - oxidation reduction	1	59
Electrolytes - nitrites - urine - bacterial infections - investigations	17	264
Electrolytes - supplements - investigations - favorable response	17	265
Electron density - Ionosphere - Analysis	22	140
Electron Density Profile - Ionosphere	22	111
Electrophoresis - gel - investigations	17	28
Electrophoresis - gel - protein separation - investigations	17	34
Electrophoresis - gel - protein separation - investigations	17	53
Electrophoresis - paper - investigations	17	24
Elemental identification - electrochemistry - voltammetry	21	200
Env. Filament - Amides - Nitro Group - Isothiocyanate - Protein	22	192
Environmental Filament - digestion methods developed	21	275
Environmental Filament - Amides - Protein	22	192
Environmental Filament - Amides - Protein	22	192
Environmental filament - digestion difficulties - methods development	15	117
Environmental Filament - ICMP data publishing	20	163
Environmental Filament - Infrared Plot (IR) - strong signal via microwave digestion	20	204
Environmental filament - infrared spectrum - success - referenced	15	117
Environmental Filament - Isothiocyanate	22	192
Environmental filament - keratin - reference	15	115
Environmental filament - melting point - investigations	17	83
Environmental Filament - Microscopy - IR	21	109
Environmental Filament - Microwave digestion	21	132
Environmental Filament - NIR Analysis - Microwave digestion	21	135
Environmental filament - pH - reference	15	116
Environmental Filament - Protein - Amides	22	192
Environmental filament - protein identification	20	205
Environmental Filament - Sulfur	22	197
Environmental Filament - UV Analysis - Microwave digestion	21	134
environmental filament - VIS spectrometry	2	113
Environmental filament penetration - microwave digestion	20	203
Enzyme influence - culture process - CDB	18	226
Equivalence : Crystal - Skin Formation - Env. Filament via IR spectroscopy	22	339
Equivalent Circuits - Electrical Impedance Spectroscopy	21	162
Ester - HEPA air filter	18	292
Ester - Rain and air sample analysis	20	168
Ester - Rainfall	22	200
Ester - skin sample - IR	19	158
Ester formation - alcohol - acid - investigations	16	66
Ester formation - chemistry - investigations	16	78
Esters - Amides - CDB	22	183
Exponential Harmonics - referenced - original math research	16	108
Extraction methods - investigations	19	123
fenton's reaction - influence	2	19
Ferric Ion - Urine Testing - Phosphate test developed	21	4
Ferridoxin - Cross Domain Bacteria	22	169
Ferridoxin - Cross Domain Bacteria	22	188
Ferridoxin - Protein	22	188
Ferridoxin protein - CDB	22	169
ferrodoxins - bacteria - ancient cofactors in biology - iron sulfur clusters	21	367
ferrodoxins - protein - moderate electron transfer	21	368
ferrooxins - blood - iron disruption	21	368
filament - breakdown	1	12
Filament - Environmental - Amides - Nitro Group - Isothiocyanate - Protein	22	192
Filament extraction - oral - vitamin C method - developed - confirmed	17	312
Filament production - concentrated rainfall sample - methods development	15	51
Filament production - rainfall - Morgellons - reference	15	50
Filament reaction - saliva - investigations	17	311

Filament sample - oral - Vit C extraction method	18	5
filaments - environmental - culture	2	113
Formal charge determination - notes	20	258
free radicals	2	23
Functional Group Listing	21	18
Functional Group Summary: Env. Filament - CDB - Rainfall Extraction - HEPA Filter	22	256
Gas analysis - methods development - gas chromatography	15	92
Gas chromatography - Alternate column - polarity - investigations	15	136
Gas chromatography - carbon number - investigations	15	202
Gas chromatography - gas identification - methods development	15	201
Gas chromatography - hydrocarbon analysis	19	172
Gas chromatography - hydrocarbon analysis	19	192
Gas chromatography - hydrocarbon analysis - modeling	19	241
Gas chromatography - investigations - methods development	19	199
Gas chromatography - molecular weight - carbon number - modeling	19	181
Gas chromatography - potential applications	16	65
Gas chromatography - predictive modeling investigations	19	137
Gas chromatography - pyrolysis methods developed	20	16
Gas chromatography - response factor - investigations	16	40
Gas chromatography - retention modeling - investigations	15	98
Gas chromatography - retention modeling - investigations	15	109
Gas chromatography - retention modeling methods	16	115
Gas chromatography - retention time modeling	16	15
Gas chromatography - retention time modeling	16	35
Gas chromatography - retention time modeling	16	43
Gas chromatography - retention time modeling	16	87
Gas chromatography - retention time modeling - applied	16	103
Gas chromatography - retention time modeling - polarity investigations	16	53
Gas chromatography methods developed - traps developed	20	15
gas law	1	43
gas reaction	1	43
GC (gas chromatography) control studies	20	28
Genetic engineering - CDB - notes	19	38
Genetic engineering - CDB - protein production - reference	17	107
Genetic engineering - CDB - protein production - reference	18	201
Genome size estimate - CDB - intitial investigations	20	68
Genome size estimate - CDB - intitial investigations	20	87
Geometric Formations - CDB	22	339
Geometric Formations - Cross Domain Bacteria	22	339
Global Validation research paper - spider web - Env. Filament distinction	21	139
global warming - hypothesis	1	69
Hair - alkene - isocyanide - IR spectroscopy - investigations	16	215
Hair - human - digestion - microwave - chemical - methods development	16	207
Hair - human - digestion - notes	16	76
Hair - human - HEPA air filter - comparisons - spectroscopy	18	259
Hair - phosphate - isocyanide - detection - referenced	16	214
Headspace analysis - gas chromatography - CDB gas production	20	139
Headspace investigations - GC	19	131
Headspace methods - investigations - GC - Gas Chromatography	15	41
Health - Neck - rash and swollen appearance	20	4
Health observations - neck reaction - CDB pyrolysis - notes	20	190
Health observations - neck reaction - CDB pyrolysis - notes	20	293
Health practitioner responsibilities - notes	19	154
HEPA - Liquid Chromatography IR analysis	21	50
HEPA air filter - extraction - Ester observation	18	292
HEPA air filter - liquid chromatography - separation - observation	18	267
HEPA air filter - protein - positive test - LC separation - observation	18	268
HEPA air filter - protein - positive test - LC separation - observation	18	271
HEPA air filter - protein - positive test - LC separation - observation	18	273

HEPA air filter - protein - positive test - UV spectroscopy - Bradford	18	277
HEPA air filter - protein - positive test - UV spectroscopy - observation	18	275
HEPA air filter - protein extraction - confirmations	18	332
HEPA air filter - protein identification	20	171
HEPA air filter - protein isolation	18	305
HEPA air filter - protein isolation - methods development	18	305
HEPA air filter - rainwater equivalence - organic signature (IR)	20	179
HEPA Air Filter - Rainwater Extraction comparison - IR	21	55
HEPA Air Filter Analysis	22	258
HEPA Air Filter Analysis - Multiple methods	21	57
HEPA Air Filter Extraction - Protein testing	21	70
HEPA air filter extraction - UV spectrometry	18	261
HEPA extraction - protein confirmation - method development	18	277
HEPA filter - rainfall extract - CDB protein - equivalence - comparisons	16	199
HEPA Filter Analysis	22	258
HEPA filter analysis - initial	16	70
HEPA filter separations - summary - liquid chromatography - LC	18	289
HEPA infrared analysis	21	39
HEPA liquid chromatography separation - infrared spectrum notes	19	21
HEPA liquid chromatography separation IR spectrum	19	26
HF - Amateur Radio	22	33
High Frequency Studies - Amateur Radio	22	33
Hormone, thyroid, blood disruption	17	62
Human Hair - digestion methods developed	21	270
Human Hair - Microwave digestion	21	125
Human Hair - Spider Webs - Env. Filament comparisons	21	277
Human Hair - UV - NIR - Spider web - Keratin - comparison	21	126
Human Hair - UV analysis - microwave digestion	21	148
Hydrocarbon gas production - CDB - GC analysis	20	136
Hydrocarbons present - Rain and Air samples	20	168
hydroxyl radical	2	19
Identification - unknown compounds - methods development	16	84
Identification of unknown sample - investigations - methods application	16	129
Inductively coupled plasma - mass spectrometry - environmental filament	20	163
Infrared - Trap - Gas Chromatography (GC) Method developed	20	6
Infrared Analysis - Accomplishments	22	279
Infrared Environmental Filament - Cross Domain Bacteria - CDB - Rainfall - HEPA Filter	22	256
Infrared film preparation techniques - ATR	17	64
Infrared Interpretation Summary - Major Sample Groups	22	256
Infrared spectroscopy - ATR (attenuated total reflection) - pH restrictions	16	207
Infrared Spectrum - CDB Pyrolysis	22	357
Inorganic analysis methods summarized	21	267
Instrumentation - Spectroscopy - UV - VIS - NIR methods acquired	18	160
Instrumentation - Urine Analyzer - Ultrasound - Biochemical Analyzer - ECG	18	160
Intellectual Property - Carnicom Institute	18	161
Iodine - alcohol reaction	18	89
Iodine - colorimetric stability	18	76
Iodine colorimetric test reagent development - difficulties	17	254
Iodine colorimetric test reagent development - investigations	17	254
Iodine number - method development	18	84
Ion detection - inorganics - methods development - investigations	18	148
Ion determination - voltammetry - electrochemistry	21	200
ion testing	1	49
ion testing	1	73
Ion testing - inorganic - methods development	17	304
ion tests - barium chloride	1	114
ion tests - iron - chloride	1	80
ion tests - wine - chloride sulfate iron	1	118

ionic - covalent	1	67
Ionogram Analysis - Ionosphere	22	92
Ionosonde Data Analysis	22	92
Ionosphere - Critical Frequency Analysis	22	109
Ionosphere	22	4
Ionosphere - Statistical Study	22	109

Urine - emulsion extraction - non - polar compound - thiocyanates - investigations	20	293
Urine - IR analysis	21	314
Urine - lipids - investigations	20	282
Urine - nitrite testing	18	46
Urine - nitrites - testing	17	194
Urine - non polar compound - Env. Filament IR equivalency - notes	20	291
Urine - non polar compound - investigations	20	289
Urine cultures - CDB	22	265
Urine cultures - microscopy	22	265
Urine testing	17	194
Urine Testing - Ferric Ion - Phosphate test developed	21	4
UV - Critical Frequency - Ionosphere relationships	22	124
UV - Critical Frequency relationships	22	124
UV - Ionosphere - Ozone relationships	22	129
UV - Ionosphere - Ozone relationships	22	131
UV - Ionosphere - Ozone studies	22	129
UV - Near Infrared (NIR) analysis - HPLC (liquid chromatography) separations	21	68
UV Analysis - CDB protein	21	81
UV Analysis - CDB protein	21	84
UV Analysis - Rainwater	21	214
UV Increase	22	125
UV Increase - Decrease	22	124
UV Regression Analysis	22	126

UV Study	22	124
Vapor pressure regression modeling - investigations	16	5
Vector analysis - investigations	15	163
VIS - resonant frequency investigation	2	43
VIS spectrometry	2	39
Visible light absorbance spectroscopy - polysaccharide - oral filament - biofilm	18	29
visible light spectrometry	2	39
visible light spectrometry - initial	2	68
Vitamin C - colorimetric test developed	17	317
vitamin c prospect	2	29
Voltammetry - Elemental Analysis Investigations	21	174
Weather forecasting - aerosol operations - humidity observations	18	16
Weather forecasting - investigations	18	9
wine - composition	1	61
wine - conductivity	1	72
wine - iron - oxidation state	2	6
wine - synthetic solution development	1	89
wine - synthetic solution development	1	116
wine ion testing - sulfate chloride iron	1	118
Wine test - biofilm extraction - method comparison	18	23
Xylene - biomolecule extraction solvent - lipids - investigations - GC	15	55
Yeast - CDB protein trial	21	24
Yeast aberration - CDB protein culture	21	31
